PRODUCTLINE
BLACKOUTS

PRODUCTTYPE
> PVC free glass fibre fabric

PRODUCT NAME
> 07642 NOX

Flocart glass fibre blinds let you enjoy the pleasant sunlight without getting your room overheated. Glass fibre being well known for its dimensional stability, flame retardant properties and durability. Flocart blinds are a durable solution that have been developed for intense use. Moreover, Nox combines the great technical properties of glass fibre with a 100% darkening effect.

TECHNICAL SPECIFICATIONS

 Composition PVC free glass fibre fabric, acrylic coated + white flock	 Dimensional stability variation < 0,5%
 Weight ± 500 gr/m ² (± 5%/m ²)	 Fire classification NF-P 92/507 (2004) – M1 • NFPA 701 (2015) • Din 4102-01 (May 1998) – B1
 Width 89 mm - 127 mm - 2350 mm – 3200 mm	 Lightfastness 6 - ISO 105 B02 (1999)
 Thickness 0,49 mm (± 5%)	 Heat sealable no
 Usage vertical blind	 Care instructions wipe with a damp cloth
 Usage roller blind	 Thermal and optical factors Transmission, solar reflection, solar absorption

Reference		Solar Transmission %	Solar Reflection %	Solar Absorption %	Gtot double glazing with argon	UV Transmission %
